Professional Experience

2024/04	**Freelance Front-End Developer**

Designed and developed responsive websites using HTML5, CSS3, and JavaScript.

- *Created interactive user interfaces with React.js and Bootstrap and tailwind.*
- *Collaborated with clients to understand requirements and deliver tailored solutions.*
- *Improved website performance and optimized user experience for various devices.*

Front-End Web Developer
Self-Employed

Skills

HTML5	CSS3
JavaScript (ES6+)	React.js
Bootstrap	Tailwind CSS
Git	GitHub
Consuming REST APIs	Problem-solving
Next.js	Type Script
Redux	

Profile

I am a passionate and ambitious Junior Front-End Developer with a strong foundation in HTML, CSS, and JavaScript, along with experience in frameworks like React.js and Bootstrap and tailwindcss. As a recent graduate of Route Academy, I am eager to apply my knowledge to create responsive, user-friendly web applications. I have a keen eye for detail, a commitment to continuous learning, and a drive to deliver exceptional user experiences. My goal is to contribute to innovative projects while growing and evolving as a developer.

Projects

Social Media App

Developed a social networking application using Next.js, TypeScript, and Redux to ensure a scalable and maintainable architecture. Implemented state management with Redux Toolkit for efficient data handling and optimized performance using server-side rendering (SSR) and static generation (SSG). Integrated authentication, real-time updates, and dynamic user interactions to enhance the user experience.

Key Features:

- **User Discovery:** Allows users to search for and connect with others based on interests, location, or username.
- **Real-Time Updates:** Integrated **live notifications and dynamic content updates** to enhance engagement.
- **Post Creation & Interaction:** Users can create posts, like, comment, and share, with seamless state management using **Redux Toolkit**.
- **Responsive Design:** Fully optimized for both desktop and mobile devices, providing a smooth and consistent user experience.
- **Error Handling & Validation:** Ensures proper user input validation and provides **clear error messages** for failed actions like invalid login attempts or network issues.

E-commerce Website Project

Description: *Developed a fully functional E-commerce website to provide users with a seamless shopping experience, including product browsing, adding items to the cart, and secure checkout.*

Key Features:

- **User Authentication:** Implemented user registration, login, and logout functionalities with JWT for security.
- **Product Management:**
- **Shopping Cart:**
- **Checkout Process:**
- **Admin Dashboard:**
- **Responsive Design:**
